

## **Android APN (3G) settings for Australia and New Zealand mobile carriers**

### ***Australia mobile network***

#### **Optus**

EDGE/GPRS APN: internet

3G APN: connect

3G prepay APN: preconnect

Username: (blank) or Guest

Password: (blank) or Guest

DNS: 202.139.83.3, 192.65.91.129

MCC: 505

MNC: 02

#### **Virgin Mobile**

APN: VirginInternet

Username: Guest

Password: Guest

DNS: 61.88.88.88

MCC: 505

MNC: 02

(Inserting Virgin Mobile Broadband only SIM into an Android phone will NOT connect to the 3G data network. We believe it is the lack of PAP authentication in Android, please contact us if you figured out to make it work.)

## **Vodafone**

APN: vfinternet.au

Username: (blank) or Guest

Password: (blank) or Guest

DNS: 192.189.54.33, 210.80.58.3

MCC: 505

MNC: 03

(Inserting Vodafone Broadband only SIM into an Android phone will allow you to browse the internet using these settings.)

## **Telstra**

3G/EDGE/GPRS

APN: telstra.iph

Username: (blank)

Password: (blank)

MCC: 505

MNC: 01

GPRS APN: telstra.internet

Username: (blank) or guest

Password: (blank) or guest

DNS: 139.130.4.4, 203.50.2.71

3G data bundle: telstra.datapack

Username: (blank)

Password: telstra

DNS: 139.130.4.4, 203.50.2.71

3G pay by time: telstra.pcpack

Username: (blank)

Password: telstra

DNS: 139.130.4.4, 203.50.2.71

3G prepay: telstra.wap

Username: (blank)

Password: telstra

DNS: 139.130.4.4, 203.50.2.71

### **Three**

APN: 3netaccess

Will give you public IP which means you have direct access to Internet, someone can connect to you and you can do port forwarding. Which also means you cannot access Planet3 with your browser.

Username: (blank), guest or “a”

Password: (blank), guest or “a”

DNS: 202.124.68.130, 202.124.76.66

MCC: 505

MNC: 06

APN: 3services

Will give you a private IP (using NAT), so you will not be able to forward ports or get direct access to Internet (which means someone cannot connect to you if you need to run P2P or a server), but you will be able to access Planet3 with your browser.

Username: (blank), guest or “a”

Password: (blank), guest or “a”

DNS: 202.124.68.130, 202.124.76.66

APN: 3service

No access to internet, internal 3 network only, i.e.: Planet3, 3 Web mail, etc.

Username: (blank), guest or “a”

Password: (blank), guest or “a”

DNS: 202.124.68.130, 202.124.76.66

Vodafone New Zealand

APN: live.vodafone.com

Username: (blank) or guest

Password: (blank) or guest

DNS: 202.20.93.10, 203.97.191.189

MCC: 530

MNC: 01
