## WeGolf Australia Pacific Pty Ltd announces a unique new software product – GPS On Your Mobile!

**Innovative, easy to use with more features than any hand-held rangefinder. The retail price is CHEAPER than purchasing a dedicated device. WeGolf Australia will launch with a SPECIAL INTRODUCTORY PRICE of \$79.95 for a limited time.**

Golfers already carry the only GPS device that they need!

**Melbourne, Australia - 27 October 2008** – WeGolf Australia Pacific is an integral part of a worldwide technology and design group which is leading the world in mobile GPS software for golfers. Golfers can take advantage of a rich suite of features not available on any other competing product.

The WeGolf GPS caddie works with built-in and bluetooth GPS phones and it even provides the scorecard, statistics, our unique *Live Score* and more to phones without GPS.

### WeGolf GPS caddie suite comes with:

- Distance Tee to Green from any point on the course
- Electronic Scorecard
- Users can map their own course including multiple points on the green not limiting them to just the front, middle or back. As well as, unlimited points of interest on the rest of the hole.
- Automatic calculations for all statistics including birdies, pars, bogies, greens in regulation, fairways hit, stableford points, putts, average score per hole, skins, etc.
- Golfers can map their own strokes including the club they hit, how far they hit it and where they hit it to. On their home computer, they can analyse it like a pro. Friends, their coach or others can view it on satellite images in real-time – **A great coaching tool!**
- Download a new course to your mobile in seconds while on the tee. It's **FREE** to download from thousands of worldwide courses.
- Record those memorable moments by publishing pictures live on the web
- Multi-lingual, community, side games, and more

WeGolf operates without additional phone charges as the data connection used is equivalent to sending an SMS message.

Other products may claim that they can help you improve your golf but only WeGolf can. No other hand held GPS caddie has the unique features found in WeGolf. **WeGolf, the most affordable and feature rich GPS caddie in the world!**
